

ME-FL3000-D

3 Ton Off-Road Forklift

ME-FL3000-D is a MERI off-road forklift for professional site, farm or municipal operations.

Confirmed and Configuration-Based Specifications

Parameter	Value
Rated load class	3,000 kg
Equipment type	Off-road forklift
Power / drive	Diesel
Carrier or interface	Confirm before quotation
Hydraulic requirements	Confirm for selected carrier
Final dimensions and weights	Confirmed on formal technical offer

Configuration and Order Confirmation

Final specifications depend on the selected engine, battery, emissions package, cab, tires or tracks, hydraulics, attachments, controls and destination-market requirements. The formal technical offer and signed order confirmation take precedence over this overview.

Request a Technical Offer

Send the working application, required capacity or width, site conditions, attachments, destination country and expected quantity to sales@merimachinery.com.

Document status: Product-family technical overview. Verify every final value against the confirmed production configuration before purchase, resale, compliance submission or operation.
