

ME-ST1500

1,500 mm Snow Thrower

ME-ST1500 is a MERI snow throwing attachment for professional site, farm or municipal operations.

Confirmed and Configuration-Based Specifications

Parameter	Value
Working-width class	1,500 mm nominal class
Equipment type	Snow throwing attachment
Power / drive	Carrier configuration
Carrier or interface	Confirm before quotation
Hydraulic requirements	Confirm for selected carrier
Final dimensions and weights	Confirmed on formal technical offer

Configuration and Order Confirmation

Final specifications depend on the selected engine, battery, emissions package, cab, tires or tracks, hydraulics, attachments, controls and destination-market requirements. The formal technical offer and signed order confirmation take precedence over this overview.

Request a Technical Offer

Send the working application, required capacity or width, site conditions, attachments, destination country and expected quantity to sales@merimachinery.com.

Document status: Product-family technical overview. Verify every final value against the confirmed production configuration before purchase, resale, compliance submission or operation.
